

Visor For Fumigation Mask ref. 22202

Replacement for fumigation mask.

- **Materials**

Made of 24 x 30 cm 40 caliber Petg, optically rectified, resistant to impact infiltration and chemicals.

- **Maintenance**

Wash with cold water and detergent-free soaps, after each use. Let dry in the open air. Do not dry clean the visor or use petroleum derivatives such as gasoline or thinner for cleaning.

- **Normative compliance**

NTC 3610 "Headgear for welding and facial protectors".

ANSI Z87.7 "Practice for occupational and educational protection of the eyes and face"
