

Tool Belt ref. 27501

Recommended for carpenters, electricians, telephone installers, welders and maintenance workers, who need to easily and quickly dispose of their tool.

- **Materials**

Made of woven nylon, with reinforced seam in nylon thread for more resistance and durability. The impermeability of the material offers moisture protection to the tools.

The three pockets of sufficient capacity allow the user to carry a lot of different sizes tools.

The tape measure holder, electrical tape holder, wire holder and hammer holder are other accessories that make it practical in various works, avoiding the worker displacement for reach them.

- **Maintenance**

The characteristics of the material are not modified when washing it. Avoid impacts on the closing buckle and the oversized tools in the pockets.
